

# DOMETIC IBIS 4 ROOF AIR CONDITIONER

The Dometic IBIS 4 sets a new standard for air conditioning in the mobile living market thanks to several refinements made from the acclaimed IBIS 3. The Dometic IBIS 4 features a powerful dual-cylinder horizontal compressor, a first for the RV industry, which creates a more balanced roof top unit and reduces the level of vibration. In

addition to this, the quiet environment that the IBIS 3 achieved has been replicated. The internal ADB has been redesigned, optimising airflow inside the vehicle. For the first time in an IBIS air conditioner, a turbo-mode fan speed has been included, which allows for rapid cooling inside the RV.

## DOMETIC IBIS 4

Roof air conditioner

- Excellent cooling capacity of 2.6 kW
- Dimensions: 758 x 230 x 1112 mm
- Extremely quiet cooling, even at maximum speed
- Adjustable vents for even air distribution
- Lightweight rooftop unit at only 40 kg
- Four fan speeds, including a turbo speed
- Suitable for both 400 x 400 mm and 360 x 360 mm roof openings

### DOMETIC IBIS 4 SPECIFICATIONS

Ref No.	9600009482
Rooftop Dimensions (W x H x D)	758 x 230 x 1112 mm
ADB Dimensions (W x H x D)	518 x 48 x 579 mm
Installed Weight	40 kg
Compressor Type	New Generation Variable Speed
Cooling Capacity	2625 W
Current Draw (Cooling)	6.9 A
Start-up Current	7.5 A Maximum
Maximum Current Draw	8 A Maximum
Fan Speeds	4 (including Turbo speed)
Roof Opening Fitment	400 x 400 mm or 360 x 360 mm

Mobile living made easy.
